

Rope Start Release Rules

WGP#1 Waterjet Pro Tour 2026, Round 4

To ensure that the competition runs smoothly and that the same standards are applied to all competitors, all riders are kindly requested to strictly comply with the following technical inspection regulations:

1. Release Procedure

- The race will use a rope-start system, with a rope attached to the rear of the boat. No part of the boat may cross the start line before the start signal.

2. Holder Requirements

- Runabout class: A maximum of 2 holders are allowed per boat.
- Ski class: A maximum of 1 holder is allowed per boat.

3. Safety & Pontoon Regulations

- Every holder on the pontoon must wear a life jacket and gloves at all times.
- Anyone who fails to comply with these requirements will not be permitted on the pontoon.
- Please note that the water is deep. All holders must exercise extra caution.
